André Ebénézer Messey à Ndiomo

Summary

Experienced Computer System Engineer with a demonstrated history of working in the government administration industry. Skilled in JavaScript, Java, Python (Programming Language), SQL, Oracle Database and Linux System Administration. Strong information technology professional with a Master's Degree focused in Computer Science from African Institute of Computer Science.

Experience

March 2022–Present   **Freelance Web Developer**, *Personal Project*, Yaoundé Cameroun
downloadaccelerator website 🐍 (**https://downloadaccelerator.pythonanywhere.com**).
Skills: JavaScript-JQuery, Django-Python

March 2020–Present   **Web Developer**, *Personal Project*, Yaoundé Cameroun
Firefox Addon 🐍 (**https://addons.mozilla.org/fr/firefox/addon/download_accelerator/**). This addon makes easy the downloads of videos from Firefox browser. it adds context menu item for links, also adds a download panel, and helps to intercept downloads. But Download Accelerator addon does not work alone. To download files, you must also install downloadaccelerator application that you can get from **snapstore (https://snapcraft.io/downloadaccelerator**). Of course downloadaccelerator application only works on Linux systems(Debian and Ubuntu) for the moment.
Skills: JavaScript

April 2018–Present   **Application Developer**, *Personal Project*, Yaoundé Cameroun
The snap **downloadaccelerator** 🐍 (**https://snapcraft.io/downloadaccelerator**) is a free and open source software application that allows quickly downloading of files on the web. it only works on Linux systems Debian and Ubuntu for the moment.
Skills: Java, Shell Bash, Linux

December 2011–Present   **Computer System Engineer**, *Cameroon Supreme State Audit*, Yaoundé Cameroun

June 2023–September 2023   **Freelance Web Developer**, *Personal Project*, Yaoundé Cameroun
My Personal website 🐾 (**https://messeyandiomo.onrender.com**).
Skills: ReactJS, NodeJS

March 2011–July 2011   **Software Engineer**, *Better Computing*, Libreville Gabon
Implementation of a multimedia messaging service and electronic wallet management system
Skills: C, Linux
